Living Quarters – an EPC contract including helideck

The Contract was awarded on June 30th, 2000 by Statoil.

The Contract included a complete living quarters and helideck.

All elements of the contract were EPC-related, including engineering, procurement of all materials and

fabrication. Commissioning was also included for the living quarters.

Aluminium was used as the structural material.

This contract was the ninth Living Quarters to the same oil company, Statoil. Again, this contract proved

our ability to deliver on budget and with no outstanding items upon delivery.

All expectations were fulfilled to the customer's satisfaction.

Kvitebjørn
