

Nelson

Living Quarters and helideck

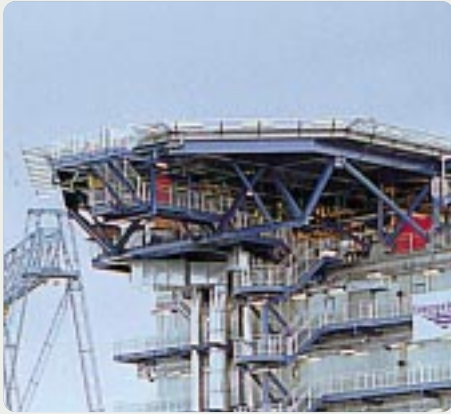

In March 1991 Leirvik Module Technology signed an EPC contract for construction of the Nelson living quarters module and helideck for Shell Exploration and Production U.K. The Nelson wellhead platform is

located in the central UK sector of the North Sea.

The work performed by Leirvik Module Technology on the Nelson project included all activities

necessary to complete the engineering, procurement, fabrication, outfitting and commissioning of the Nelson living quarters.
